Angelo
HD

PRODUCT DESCRIPTION

Bolide's New High Definition over Coax series of cameras delivers HD 720P quality over coaxial cable utilizing a 1 megapixel SONY sensor. These HD cameras can utilize existing infrastructure and deliver quality that is far superior to traditional analog CCTV with a cost effective solution to upgrade your analog system to an HD quality product. Besides, these cameras are really convenient with HD/960H switch option, a great feature for the customers still looking to buy analog solutions.

Angelo HD cameras deliver very detailed high definition images with no compression artifacts or transmission-related delays. Angelo HD line of cameras can be easily integrated into an existing 960H/D1 system making this product not only an upgrade in image quality but an easy smooth transition into a complete HD system.

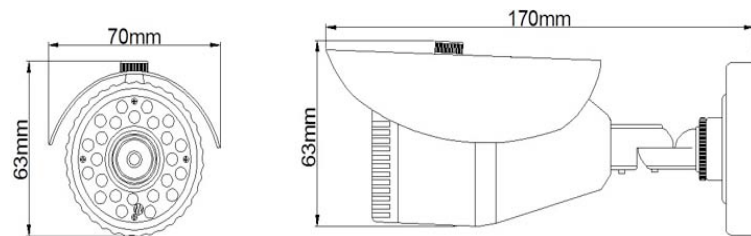

CAMERA CHARACTERISTICS

SIGNAL SYSTEM	NTSC / PAL
SENSOR	1/4" SONY 1.0MP
DSP	Next Chip
ACTIVE PIXEL	1280*720
RESOLUTION	720P
LENS	3.6mm
VIDEO.OUT	BNC
SENSIBILITY	0. Lux with I.R.
GAMA	0,45
ELECTRIC SHUTTER	1/50s-1/50000s
S/N RATIO	50dB(min)(AGC closed)
WHITE BALANCE	ATW
AGC	AUTO
BLC	AUTO
ON SCREEN DISPLAY	Yes
Digital Wide Dynamic Range	Yes
3D – Digital Noise Reduction	Yes
Masking	4 Privacy Zones Configurable
Mirror Image	Yes
Multi Language	Eng, Spa, Por, Tur, Pol, Chi
DIMENSIONS	38(L)*38(W)*1.6(H)

CERTIFICATIONS

CE	Yes
FCC	Yes
RoHS Compliant	Yes

General Dimensions

ENVIRONMENTAL

WEATHERPROOF	Yes
OPERATION TEMPERATURE	Temperature -10°C ~ +60°C, Humidity less than 85%RH, -40C when powered ON

IR ILUMINATION

IR LEDs	23 PCS
IR DISTANCE	20M

POWER

POWER INPUT	DC12V±1V
POWER DISSIPATION	70mA
